

WHAT YOU NEED TO KNOW: BANKING DURING THE CORONAVIRUS OUTBREAK

IN THE EVENT THIS BRANCH LOCATION HAD TO TEMPORARILY CLOSE, ARE YOU READY?

This is a question we are asking all of our members to carefully consider. Although we do not anticipate a closure at this time, circumstances beyond our control may result in the modification of branch hours, services available to members or the temporary closure of one of our branch locations.

Management may need to consider these modifications should one of the following occur:

- An employee tests positive for COVID-19
- Staff is too limited to open to the public
- When the safety of our employees is at risk
- Other unforeseen circumstances

If a branch location is temporarily closed due to a positive COVID-19 case, all employees within the branch will be required to self quarantine for 14 days. This will mean **ALL SERVICES**, including the ATM and Night Depository Box will not be available during this closure period.

We recommend all members get set up with the following **FREE** services to ensure a more convenient banking experience, should one of the above circumstances occur:

- Online / Mobile Banking,
- Mobile Check Deposit,
- VISA Debit Cards,
- Bill Payer
- Direct Deposit with your employer (if available).
